

Stop Work Authority Policy

2025 Edition

STOP WORK AUTHORITY POLICY
PT RADIANT UTAMA INTERINSCO Tbk
NO. SKD/003/RUI/II/2025

PT Radiant Utama Interinsco Tbk realizes that our activities are always associated with potential hazards which at any time can cause harm to humans, time, assets and the environment. All of that will be resolved if management and employees have a high commitment to realizing priorities that you can do without accidents.

For this reason, management gives full authority to all employees and employees of sub-contractors to stop work that is hazardous for safety reasons for further communication and repairs.

The authority of this work agreement will be guaranteed by the management as a direct form of management's interaction in fulfilling SHE and will certainly not get negative effects and/or retaliation from any party.

We all uphold the value of honesty in every action that has a positive impact on employee safety, assets and the environment.
